**TESTIMONIALS**

Thank you Joseph.
For me I admire how responsible and focused in life you are at your age. So inspiring to our young boys. I see what you are doing as a way of reaching out to the young children to know God. Use that opportunity to also tell them about Jesus. Let the children know that it is not how smart they are, or how well prepared they are for AEIS, but their success is entirely in the hands of God. This is what I believe and what my children believe. Keep doing the good work. Let me know if there are opportunities to inspire and talk to the children you have in your "home stay" arrangements. I do not mind to spare time to shape someone's future, even if it is for free.

It was wonderful to have you walk

Hi mam,

Since we have come to the end of our lesson, i would like to say a BIG thank you for entrusting me to teach Rickish.

I made the right decision to find time to teach Rickish!
His spontaneous spirit will definitely bring him a long way!
I hope he will continue to be eager to learn more!

With that, i would like to wish you and your family a blessed week ahead! God bless!

We cannot express how happy we are after My daughter cleared S-AEIS and managed to get a seat in the Springdale primary school. We had only 2 months in hand and Teacher Joseph agreed to help us. All his tips and tricks helped My daughter a lot. Also, she her confidence level grew with only one class taken by Teacher Joseph! He kept her motivated through out the journey and guided her on weaknesses.
Thank you so much Teacher Joseph ..... truely appreciate the efforts! 1:41 PM

Depending on your child's performance in the test, they will be offered a place in a local mainstream school. You can check the outcome online from 8.30am on Monday, 19 April 2021 to 11.59pm on Friday, 23 April 2021.

They will have to report to their school between Tuesday, 20 April 2021 and Tuesday, 4 May 2021. The reporting period may be adjusted accordingly in response to developments in the COVID-19 situation.

Applicants who do not report to the offered schools within the period stated above may have their places offered to other applicants.

There will be no school choice and no release of test results. School transfer

Keep me posted on Ira's AEIS results tomorrow! 😁 Let's remember to uplift her no matter the results because there is always another opportunity to try! 🎉 11:26 PM

Hi Jospeh ,
Sorry about yesterday . We are always getting the week mixed up. Must have been really disturbing . So sorry again. Tiara was asking me why she was not included in that session though 😄. She was saying they were all her tuition mates and she wanted to join.
So I was wondering if yesterday's class is a different one and is it possible for Tiara to join too?

Hey Reena, no worries 😂 she did not disturb us at all hahaha!

Yes she can join, but it is a P4 Math class!

I think she has the capability to take up leadership roles & opportunities in my classes. This will help her to be an all rounder! 😁

Academics wise, I think she's doing an amazing job. She is probably getting the hang of how I want things to be done in my class. More importantly, please help me ensure that whatever she learns in tuition, she has to duplicate and apply it in her school work!

Hi joseph!

Pros - So far, ian is always looking forward to your tuition class.
Which he nvr had this feeling before! When u look at the content of the video that u send me, the engagement between you and your students are tremendously exceptional..

Cons - lessons are only twice a mth and I personally finds it insufficient & a little costly for ian to just have 2 lesson per month.

Hi Joseph,

It is no doubt that Chrystal has improved a lot since we engaged with you as the tutor for Math & English. Being away in Singapore for many years made it very challenging for her to adapt to the Singapore curriculum but with your guidance, she managed to slowly cope and I'm now more confident now that she can complete the school year with passing marks.

We are truly grateful for your dedication with the children. Thank you for your endless patience and genuine passion to teach the kids not only academically but to be a well-rounded person. You have been an inspiration not only to the kids but the parents as well.

Thank you.

Hi Joseph
Good day.

Firstly i would like to appreciate your passion towards teaching at r

This young age.

What i observed in the past one and half year is definitely the study quality improved though Aditi has a long way to get better further more.

I'm impressed with the way you interact with the kids and the way you talk with them in the personality building which is very important.

Also you completely uses the 2 hours fully on the kids without wasting time.
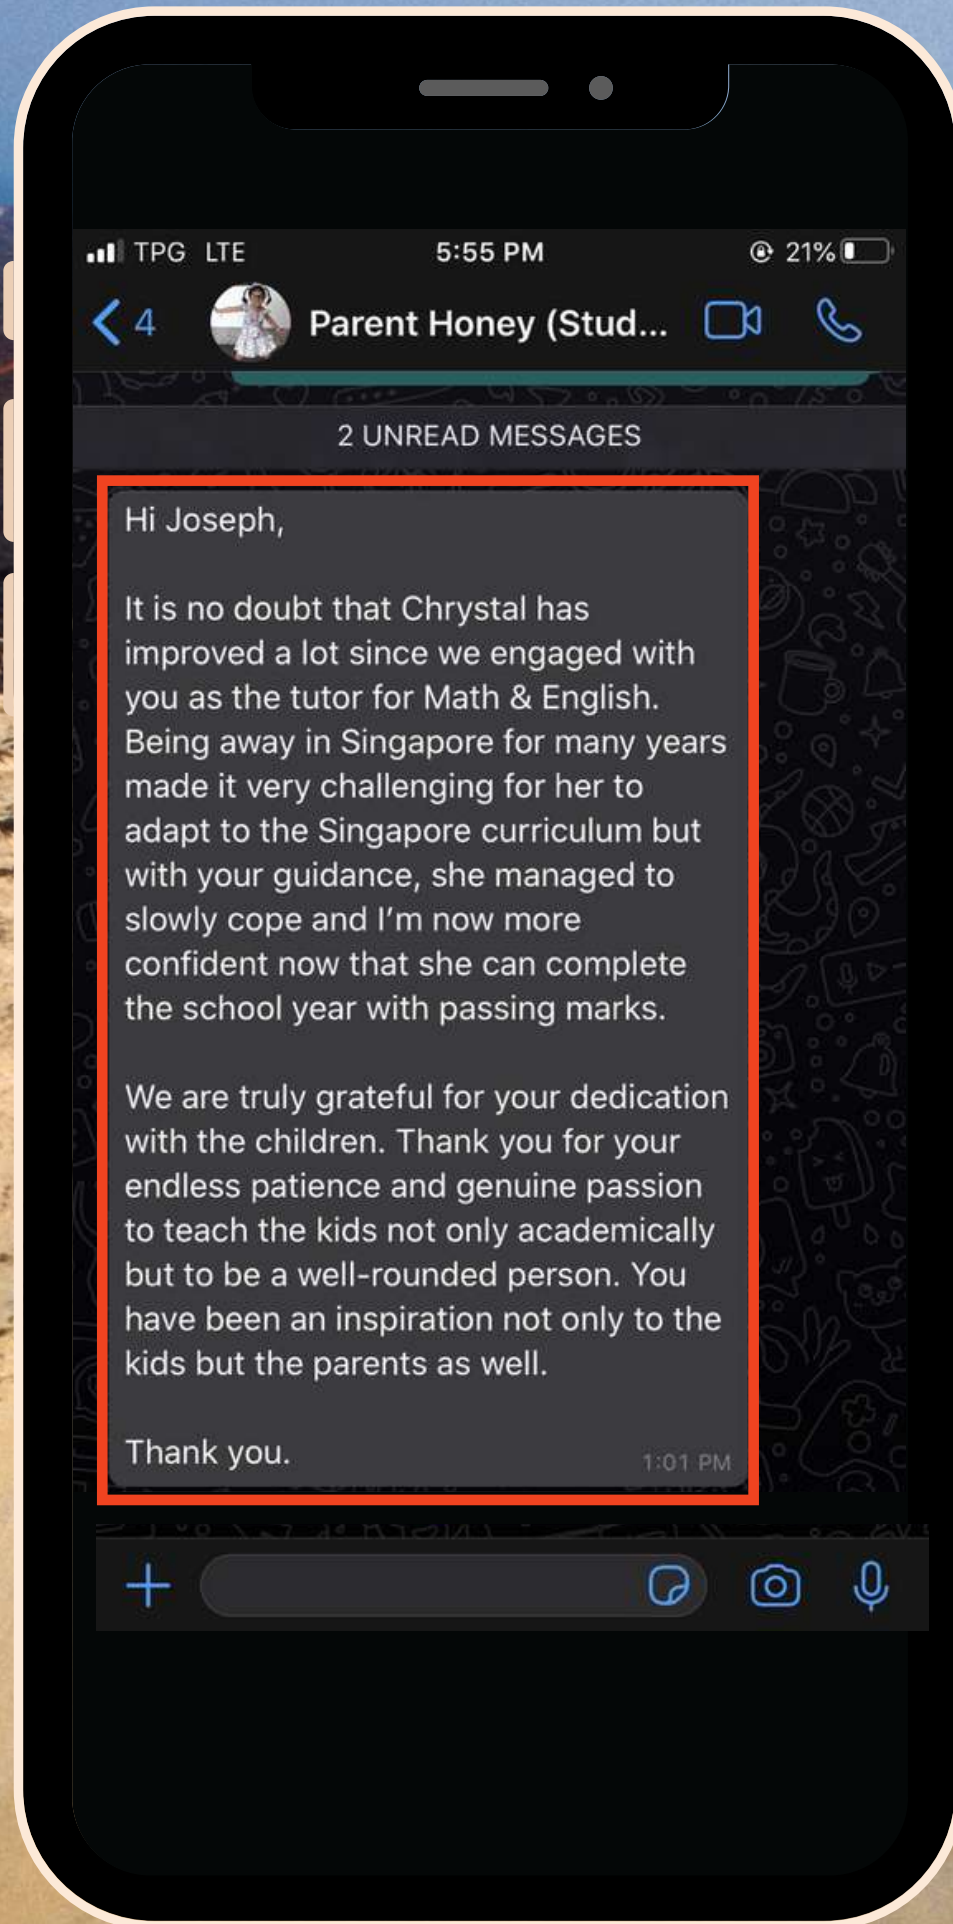

Keep going up with the same spirit.

One thing i feel which can be improved is to help the children with their time management.

Enrolling Lawrence to The Impact Academy under the guidance of Joseph was one of the best decisions we have made this year. Before they started their lessons, Joseph had them do an assessment exam to gauge the level of knowledge that they have and if they can be enrolled in a group class. After which, he set expectations for his lessons including how homework should be done and organized and more importantly, the mindset that the kids should have when it comes to tuition classes.

Joseph's lessons are very organized and his lesson plan for his students are worth commending. The goal of the tuition class is crystal clear at the start and it reflects on how each and every class is arranged. His method of teaching is very straightforward - he ensures that after each lesson is done, all students understood what has been discussed. If a student is having difficulty with a specific topic, Joseph will exert effort to ensure that the student catches up by either repeating the lesson for the benefit of everyone or having separate discussions with the student concerned.

Screen 2 — continuation of email

...students understood what has been discussed. If a student is having difficulty with a specific topic, Joseph will exert effort to ensure that the student catches up by either repeating the lesson for the benefit of everyone or having separate discussions with the student concerned.

On top of ensuring that his students understand the foundation required for Mathematics and English, Joseph ensures that the students have the correct attitude during the lessons. He taught them independence, leadership skills, social skills and work life balance. I can confirm that this is true as I have seen this reflected on my son and was also mentioned during PTCs in my son's school.

It's been a wonderful nine months (and yes to more!) of lessons and hard work for all of us - Parents, students and You! You are a blessing to us parents and to the kids.

We appreciate you!

All these months has been very rewarding for our daughter, not only she could now pass her school exams and improving everytime with good marks, but her attitude towards doing her homeworks has improved as well. Setting up her goals and how she can achieve it with Joseph's help makes an impressive result altogether. Joseph has been very good communicating with us on every detail that needs attention to help our daughter with her studies, he also consistently remind the kids (my daughter and her tutor classmates) of having the positivity in them no matter what comes along their way through the path of their success. Being patient, resourceful and creative especially when the circuit breaker took place, he has been positively encouraging the kids and us parents, enthusiastically teaching online, finding ways to ease the situation on the kids and checking up on them during the difficult times. It would be great if he can capitalised on this talent. I believe it will create many opportunities for Samuel in the near future when the virtual world becomes our real world. People will come together in the virtual world to learn, work, play and socialise.

Even microsoft is testing its own corporate metaverse and will launch in 2022 12:58 PM

All by himself

Awesome! 12:58 PM

During the holidays, it will be awesome if he can register himself for such competitions / courses. Of course, it should not "eat" into his academics time. Best is if he can strike a bal between both 😊 12:59 PM

Dear Teacher Jia, Teacher Joseph, Victor and I are happy to share that John passed his Math subject for Term 1. His grade is 67% which is a very good improvement. We are very happy. Thank you and hope he will improve more in Term 2. I would also like to firm my discussion with Teacher Jia that we would like to increase the session to twice a week for John starting March 27 on every Sunday.

hey Nina,

after engaging my services for a couple of months...

After undergoing through Teacher Joseph's classes for the past 3 months I have seen a big improvement on my son's approach in solving math problems. He also improved a lot with regards to patterns. Even if it was quite a short time, the impact is great. Now he is more confident in taking the exam than the last time when he just studied on his own.
